DRIVE-THRU MMR VACCINE CLINIC IN SPANISH FORK

FOR IMMEDIATE RELEASE

April 15, 2026

(Provo, UT)—The Utah County Health Department (UCHD) is pleased to announce a convenient drive-thru clinic offering the Measles, Mumps, and Rubella (MMR) vaccine at no cost, on April 22, 2026, from 3:00 PM to 6:00 PM at the Spanish Fork Fairgrounds.

The MMR vaccine is a critical tool in preventing the spread of highly contagious diseases that can lead to serious health complications. With measles cases actively being reported in Utah County and throughout Utah, staying up to date on the MMR vaccine is an important step to protect yourself and the community. This vaccine is typically recommended for children starting at 12 months of age, with a second dose typically given between ages 4–6 years, and for older children, teens, and adults who are not yet vaccinated or not up to date. Infants as young as 6–11 months can be vaccinated early during a measles outbreak or for international travel.

This drive-thru clinic is designed to make vaccination quick, easy, and accessible for individuals and families. Attendees can remain in their vehicles while trained healthcare professionals administer the vaccine safely and efficiently.

Event Details:

- Date: April 22, 2026
- Time: 3:00 PM – 6:00 PM
- Location: 475 S. Main St, Spanish Fork, UT 84660
- Format: Drive-thru (please remain in your vehicle)

No appointment is necessary. Vaccines will be provided at no cost while supplies last.

For more information about the MMR drive-thru vaccine event, visit the [UCHD website](#).
